

Know the gap. Help close the gap

Benefits are important to your business

More than three-quarters of employers are confident that their benefits contribute to work satisfaction, retention and productivity.

Health insurance won't cover everything, leaving employees with coverage gaps

More than half of employees are unable to pay less than \$1,000 in out-of-pocket costs for an unexpected medical event.

54% of all American workers have high anxiety about health care costs beyond what their insurance covers.

Employees need – and want – additional coverage to help protect their finances

9 out of 10 see a growing need for supplemental insurance plans that pay cash benefits to them, helping with expenses health insurance doesn't cover.

92% of employees say that their supplemental benefits help protect their financial security.

Good news, Aflac can help without increasing your businesses' benefits costs

Even though 64% of employers are experiencing an increase in benefits costs, Aflac supplemental insurance plans come at little to no cost to your business to help protect your workforce.
